

# ARMCO® HANDRAIL

Enhance your pedestrian safety and traffic delineation with the addition of Armco® Handrail to your protection barriers in car parks, warehouses and pedestrian walkways.

Armco® handrail is fitted specifically to suit your required run length and design. All handrails are hot dip galvanized with the additional option of powder coating to suit corporate or environmental colour requirements.

**General Handrail Layout**

Handrail is manufactured and supplied in a variety of sizes ranging from 25NBx2.0m to 50NBx6.5m. See following page for range of sizes. **Finish:** Hot Dip galvanized to AS/NZS 4680:1999

For a supply and installation quotation, please contact us on the numbers below. Our website also contains extensive information on all protection barriers we supply and install. Browse our online photo gallery and contact us directly via; [www.armcobarriers.com.au](http://www.armcobarriers.com.au)

**ARMCO ® BARRIERS** manufactures the posts, joins and corner and end attachments to suit each job. This may vary due to the layout and length of handrail required, therefore a specific quotation for each job is provided to ensure accurate pricing and supply of materials

Contact our sales and engineering staff to help you design the handrail that will best suit your needs. We have the reputation for prompt service in providing quotations and site inspections so that projects can be completed in the time frame that suits you.
