## **Company Profile**

ARMCO Barriers design, manufacture and install Guardrail, Bridgerail and protection barrier systems. Over the years our wholly Australian owned business has built an enviable reputation for service, quality, innovation and performance.

## DESIGN ADVICE

At **ARMCO** Barriers you deal with people specializing in the road safety-barrier industry. Many Clients take advantage of our expertise prior to planning their project and achieve better solutions at a reduced cost.

## INNOVATION

Expertise leads to Innovation. Whilst our competitor's product remains largely unchanged, **ARMCO** Barriers continue to innovate. Innovations such as symmetrical holes in the post for easier installation, or internal storage to prevent white rust are all reasons why **ARMCO** Barriers is the preferred supplier for more and more customers.

## INSTALLATION SERVICE

**ARMCO** Barriers is the only manufacturer to offer installation services by its own staff. Selecting the manufacturer to install the product has benefits including faster installation and the peace of mind that it has been correctly installed.

## COMPETITIVE PRICING

Providing better products, design advice, an installation service and the best Customer Service goes without saying. **ARMCO** Barriers also offers competitive pricing each and every time.

## QUALITY ASSURANCE

Product excellence is assured by operating in accordance with Quality Assurance System AS3902. Our products meet the requirements of Australian Standards and/or local Road Authority Standards. All product is hot dipped Galvanized to conform to AS1650. Our installation services meet the requirements of the state road authority.

## WARRANTY STATEMENT

**ARMCO** Barriers warrants that its products are supplied free of defects in workmanship and materials. Provided it is correctly installed, is not damaged in a collision nor subject to misuse, **ARMCO** Barriers Guardrail should give many years of maintenance-free use.

## AUSTRALIAN OWNED

**ARMCO** Barriers is a wholly Australian owned company that manufactures from Australian made steel wherever available.

**We continually strive to be the best in our industry and that makes ARMCO Barriers try harder to satisfy your requirements.**
